

UPHOLSTERY SYSTEM JUNIOR

# FEEL-GOOD PLACES IN ELEMENTARY SCHOOL

THE UPHOLSTERY SYSTEM JUNIOR  
**VERSATILE ISLANDS FOR THE  
SCHOOL DAY**

Different needs arise in children throughout the day – from encounters to retreat. The modular upholstery system JUNIOR provides a stage for these needs by creating islands for play and relaxation. This turns school rooms into feel-good places.

A colorful upholstered landscape from the modular upholstery system JUNIOR invites children to play and linger. The elements can be cleverly combined with partition walls to create versatile areas of retreat. The upholstered landscape can be freely extended with soft and light upholstery elements.

## CURVED ELEMENTS ISLANDS FOR SOCIAL GATHERINGS

The elementary school is a meeting place for children: They meet people of the same age, tell each other about their hobbies and make firm friendships. The elements of the upholstery system JUNIOR come together to form communicative seating landscapes for talking and stretching out. This turns hallways into inviting environments for play, conversation and relaxation.

### ADVANTAGES

- Ideal seat height and depth for elementary school children
- Modular system made of curved and straight upholstered elements allows numerous positioning options
- Individual elements can be easily rearranged and extended and can also be firmly linked together thanks to the connecting fitting supplied
- Metal feet with plastic floor protectors, optionally with felt floor protectors
- They blend into every room thanks to robust upholstery fabrics in different colors
- Particularly suitable for cluster centers, assembly halls, learning rooms, corridors and passageways
- Durable quality thanks to high-quality craftsmanship
- GS-certified, optionally fire protection certified according to DIN 66084 P-a with covering fabric B1

STRAIGHT ELEMENTS  
**COZY READING CORNERS**

In the hustle and bustle of everyday school life, children sometimes feel the need for rest and relaxation. The upholstery system JUNIOR creates cozy retreat corners - even in cramped classrooms. It is not only suitable for breaks, but is also available during lessons: when children finish tasks more quickly, want to exchange ideas in small groups, or need individual support from teachers.

**AR application**

Which corner of your room will the corner combination with table transform into a retreat?

Open seating landscape with table and CYLINDRA Soft

Free-standing sofas with table

Free-standing sofa with stools

Spacious lounge sofa by adding the stools

Semi-open seating landscape with table

### ADVANTAGES

- Suitable size for elementary school; adults maintain an overview of the room
- Flexible rearrangement and zoning of work and rest areas thanks to lightweight construction
- Space-saving storage is possible because the pieces slide into each other
- Consists of 100% recycled PET felt
- Flame retardant EN 13501-1 B-s1, d0

### ACOUSTIC PARTITION WALLS FOR CALM AREAS

Some needs are loud, some are quiet. Mobile acoustic partitions shield lively learning groups, focused tinkerers and resting children from each other. They

divide the classroom into areas for discussion, concentration and quiet, while at the same time reducing the noise level in lively elementary school classes.

Sitting circle for up to 21 children

Playscape for creative building

Protective cover for space-saving storage

**1 Cube set.** The cube elements can be put together to form a variety of seating landscapes and invite kids to play with creative stacking. After playing, all the shapes can be conveniently stored in a cover. To ensure that the cube elements also match their surroundings in terms of color, the upholstered furniture can be selected in the same upholstery fabric.

**2 CYLINDA Soft.** Just like the cube elements, the CYLINDA Soft stools are made of firm and stable foam and are ready for comfortable sitting. They stay in place thanks to an anti-slip coating. The removable cover can be color-coordinated with other upholstery elements.

## CUBE SET & CYLINDA SOFT PLAYFUL MOVEMENT

Balance is achieved not only by leaning back and relaxing, but also through movement. Children can let off steam and stack high with the lightweight elements of the cube set. The CYLINDA Soft upholstered stools are playful and offer additional seating. Together they give the body activity and the mind a break.
